

Giving Guide

A pledge is your best guess of what you will contribute to general church operations in the next fiscal year beginning July 1. Your Board of Trustees needs to know how much each of us plan to give so they can develop a budget that funds our staff, programs, utilities and other costs of running the church.

The best way to contribute toward your pledge throughout the year is to set up Electronic Funds Transfer (EFT) to automatically transfer funds from your bank account to the church bank account each month. You may also write a check, put cash in an envelope with your name on it, or transfer stock to the church brokerage account. Remember, voting at the annual meeting requires a contribution of record.

The figures below are offered as a guide. As you look them over, consider your commitment to the future of All Souls and what you are able to afford given your other important financial commitments. It's your decision. Please give at a level that expresses the value of All Souls in your life and in the life of our community. It takes all of us to build our bridge to the future!
